DS-63
A DEPENDABLE ALL-IN-ONE MAIL MANAGEMENT SOLUTION

The DS-63 is able to quickly and automatically process all standard mail management services as well as direct marketing applications. This is achieved thanks to an easy-to-use graphic touch screen and highly developed ergonomics. Designed on the basis of a tried and tested platform, it is 100% reliable. Your mail will be processed on time, every time. Combined with our output management solutions (OMS) featuring grouping, sorting and splitting capabilities, the DS-63 will optimize your mail flow and contribute to significant cost savings.

ENHANCED EASE OF USE

The DS-63 is equipped with a 5.7" graphic touch screen that makes it easy to use and allows applications stored in the memory to be accessed quickly. A step-by-step wizard allows all users to define settings for their applications and store them in the memory for job recall.

The DS-63 is a model of ergonomic efficiency and as such is well suited to automated processing. Additionally, its compact size and low noise level make it suitable for use in every work environment.

MAXIMUM FLEXIBILITY FOR YOUR APPLICATION

The DS-63 can be configured in several different ways and adapted to meet your every need. This versatility will allow you to automate your transactional mail targeted at customers and prospects to further develop your business activity. The flexFeed® function allows you to process all document sizes including inserts, reply forms and return envelopes.

Additionally, the manual mail function allows you to process both stapled and unstapled mail that may contain a variable number of documents depending on the recipient.

INTEGRATED PROCESS

Combined with Neopost's OMS solutions, the DS-63 will be able to achieve cost savings for you by automating variable page document preparation, thus avoiding manual handling and errors.

With our insert'n Mail™ solution, you can automate your total mail flow by interfacing the DS-63 to a Neopost mailing system.
MAXIMUM SECURITY

The DS-63 is also able to automate the processing of mail that contains a variable number of documents. The OMR scanner system allows you to automate the assembly of documents to be inserted for each recipient and it automatically stops the machine should the contents of a mail piece be incorrect. The DS-63 guarantees the integrity of your mail whatever the circumstances.
